AVIATION

Tysers Aviation Division

In the rapidly changing world of aviation, Tysers are able to offer fast and efficient client service built on traditional values and an understanding of each clients' needs. In the knowledge of the huge values and limits at risk in the industry, Tysers Aviation division operates to the highest standards of professionalism and integrity with total client focus. Our team has extensive experience across the whole spectrum of aviation insurance, while our client base represents a diverse and broad cross-section of the aviation industry.

"Our mission is to understand our client's needs and aggressively represent those in the market, securing the lowest possible negotiated premiums with the most comprehensive coverage. We strive tirelessly to provide the best client service in all aspects, building trust.

"We appreciate the value of close, long term client relationships and, above all, we believe in providing value to our clients."

Key Strengths

- **Independence** – As an independent, London based broker, without a network of international broking offices, we have no regional conflicts and are free to operate in a manner that allows us to focus entirely on our clients' needs.
- **Expertise** – We apply a high level of technical expertise enabling us to design innovative solutions to clients' risks and exposures.
- **People** – We have a team of knowledgeable, experienced and committed professionals who seamlessly deliver competitive premiums and comprehensive coverage.
- **Global reach** – With access to both London and International markets we are well placed to provide first class security at competitive premiums.
- **Client Service** – We strive tirelessly to provide the highest quality of client service.
- **Claims Service** – Our service is at the core of our team. Unlike many other brokers, our claims staff are integrated within our broking divisions. They are highly valued by the company and our clients alike, with whom we maintain a clear and regularly dialogue, irrespective of the level of specific claims activity.
