

TYSERS

ENVIRONMENTAL SOLUTIONS

Part of the Corporate Risks Division

Tysers are the leading independent UK broker advising on Environmental Risk and as a testament to our expertise, we have been involved in many initiatives in the Environmental sector.

Tysers work with a wide range of clients including FTSE100 companies, Corporates Funders, Lawyers and Developers on projects both in the UK and throughout Europe.

Environmental Insurance

Insurance can be arranged for liabilities associated with pre-existing historic contamination. Cover can also be arranged for contingent liability exposures associated with previous divestments by the target company. It is possible to combine both operational and historic pollution cover into a single policy.

Policies can be extended to cover consequential losses such as business interruption or economic loss associated with contamination (e.g. loss in rental income, costs of relocation, diminution in property values etc).

Tysers have a wealth of experience in a breadth of environmental covers including:-

- Contaminated Land
- Property Portfolio Cover
- Operational Pollution Risks
- Contractors Pollution Liability
- Lenders Liability/Trustees Liability
- Remediation Cost Cap.

Professional Indemnity Insurance

Tysers clients' include some of the leading environmental consultancies in the UK. We understand the environmental consultancy business and pressures. We provide a high level of client service, risk management advice and quality cost effective insurance solutions.

Renewable Energy Services

Tysers have worked on a range of energy projects. We can provide a comprehensive range of insurance solutions for the following:-

- Waste to energy plants
- Wind Farms
- Hydro, Solar & Wave projects
- Carbon Traders
- Energy Consultants.

Waste Sector

Tysers are active in the Waste Sector providing clients with advice on a wide range of insurances including:-

- Bespoke Property and liability cover (Public, Employee, Property etc).
- Environmental cover for operational activities (landfill, recycling etc).
- Environmental cover for potential pre-existing contamination liability.
- Insurance Bonds.

Since 1820
