INTERNATIONAL PROPERTY & CASUALTY

Tysers International Property and Casualty Division

As a specialist division of a medium sized broker, our emphasis is on service and strict adherence to the Tyser values – integrity and honesty.

Placing insurance and reinsurance for clients from all over the world, excluding USA and Canada, our experience extends from individual facultative risks for some of the largest companies globally to insurance and reinsurance facilities for regional insurers and brokers to enhance their local market presence.

Our global reach means we can offer the most competitive terms available in the world markets and coverage tailored to suit our clients' needs.

"The global market place is constantly evolving and we recognise the need to move with it to obtain the most competitive terms and innovative coverage for our clients. It is no longer a case of the largest being the best but the fastest and most flexible brokers who will benefit most from the constantly changing environment."

"Our ethic of putting the client's needs first and delivering a first rate service is the backbone of our business plan."
