

DEADLY WEAPON PROTECTION

Deadly Weapon Protection product provides cover for incidents that do not require Property Damage - such as an active shooter, knife or vehicle attacks, as well as other circumstances - and would thus be excluded from TRIA or other traditional covers.

The Deadly Weapon Protection product provides Third Party Liability coverage and also includes Property Damage cover as standard (on a shared limit basis). The Deadly Weapon Protection product also includes Prevention Services, Crisis Management Services, Insurance cover to indemnify losses and Extra Expenses (i.e. Counselling Services, Funeral Expenses, Public Relations and additional security measures).

Cover can also be extended via endorsement to include Business Interruption arising from disruption caused by a Deadly Weapon Protection event within a given radius (such as active shooter event on site or within the vicinity), Demolition Clearance & Memorialisation Costs and full T3L Terrorism Liability.
