

HEALTHCARE

The Tysers Healthcare team has a long legacy and strong heritage in the healthcare market. It is a rapidly evolving sector, and one that is seeing increasing consumer demand. The Tysers healthcare team is committed to the needs of its clients and can provide innovative solutions, bespoke products and related healthcare services.

US Hospital Liability

We have access to markets that will consider the full range of hospital categories; from small rural facilities, large community to multi-state systems, and large tertiary medical centres. These markets are based in London, Bermuda and Europe. Tysers deal with some of the most prestigious systems in the US, providing insurance solutions for clients as well as providing reinsurance solutions with both on-shore and off-shore captives. Our clients frequently feature in the US News & World Report Honor Roll and Healthgrades Best Hospitals list.

US Long Term Care & Allied / Miscellaneous Medical

We have access to markets that can provide primary and excess limits for a variety of facilities including multi-state / multi facility and for-profit facilities. They will consider facilities with low star ratings, facilities in difficult jurisdictions, and accounts with severity losses. We have access to markets with a broad appetite for most US allied healthcare sectors. These markets are based in London, Bermuda & Europe and can provide primary and excess limits. We can support our clients with access to several claims' handlers / TPA's and law firms to help handle claims, as well as several Risk Management service providers. Tysers has been the broker for one of the longest standing Long-Term Care binders in London, a facility currently celebrating its 20th year. Tysers is one of the largest Coverholder / MGA brokers in the London market, as such we can provide unparalleled service and tailored programs to our clients in this class.

Non-US International Medical Malpractice

Outside of the US, we have access to markets with appetite for large institutional providers, SME Allied and Long-term care, as well as individual clinicians. We are seeing increasing demand globally for healthcare products and coverage, and with Tysers unique footprint we have local knowledge with a global reach.
