

CYBER INSURANCE

From MGAs and reinsurance to stand alone placements, the strength of Tysers' Cyber team in binder placement and the Open Market is second to none.

With expertise in covering some of the smallest to largest global accounts, Tysers recognises that every insured has its own unique requirements. With access to over 77 carriers and 400m+ of capacity in sterling, euro, and dollar, we endeavour to ensure that our clients receive the support they need.

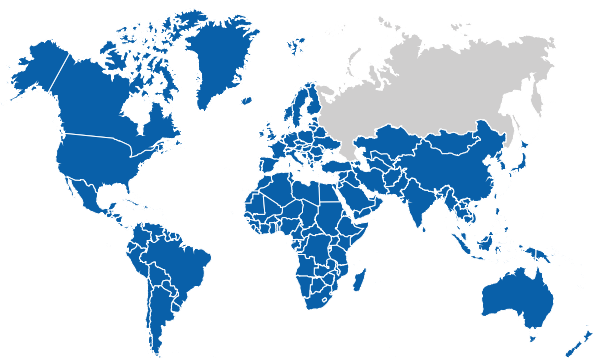

MINIMUM PREMIUMS

Under binding authority potentially as low as AUS\$500.
In the Open Market capacity potentially as low as
AUS\$5000 depending on territory.

LIMITS

AUS\$1m - \$100m+.

STAND-OUT SERVICE

A large international conglomerate with multifaceted services and controls was unable to obtain primary terms in the local market. Tysers secured terms with full ransomware coverage for all entities within 48 hours of submission and won the placement for our retail partner.

PHYSICAL DAMAGE / SILENT CYBER

Working with specialist cyber carriers and providing bespoke products, Tysers has the capability to provide (re)insurance products on both a standalone and/or writeback basis. Our multiline expertise ensures that product specialists from each line of cover work in conjunction to ensure that there are no gaps in cover.

PROGRAMMES AND FACILITIES

Ranging from bolt-on opt out programmes for exiting programmes to standalone cover holder facilities, Tysers' Cyber team brings product and market knowledge to ensure capacity deployment is effective and achievable in a quickly developing class. With over 50 years of multiclass experience our dedicated team includes experts in unique programme construction.products on both a standalone and/or writeback basis. Our multiline expertise ensures that product specialists from each line of cover work in conjunction to ensure that there are no gaps in cover.
